Edit: with the start of ICO Newsletter bounties will be closed. We'll publish spreadsheet soon.

## **Facebook Likes – 300,000 SHA**

We will be posting all SAFE HAVEN ICO updates and co-posting every blog post on our Facebook page. Every like counts, so be sure to join to get a part of our Facebook bounty.

- Every post (text / image / video) like: 10 stakes
- Comment (at least 30 characters per comment): 20 stakes
- Public share of any post: 30 stakes

You need to like our [Facebook page](#) for stakes to count.

## **Twitter Followers — 300,000 SHA**

Never miss any of our updates! Follow us on [Twitter](#) for our latest insights and retweet our news to your groups, friends and followers.

1. Follow us on Twitter: 20 stakes per week
2. Every retweet (retweet or quote tweet) or mention:
  - 10 stakes for under 300 followers
  - 20 stakes for under 1000 followers
  - 50 stakes for 1000 or more followers

## **Blogs — 300,000 SHA**

We'll distribute 300,000 SHA tokens for blog posts. Blog can be published anywhere on the internet and publicly accessible. It can be written in any language.

A blog that counts for Blog bounties must:

- have 1000 characters or more without spaces
- need to contain at least 2 links to <https://safehaven.io>
- have unique content (ANN translations do not count)

Once you write a Blog post, submit URL to: [marketing@safehaven.io](mailto:marketing@safehaven.io)

## **Translations and Forum moderation — 400,000 SHA**

If our whitepaper, website,... hasn't been translated into your language yet, you are welcome to contribute with your own translation and earn a stake in return. Please contact us on [Telegram](#) or [marketing@safehaven.io](mailto:marketing@safehaven.io) to confirm and reserve your translation. You will receive additional stakes for each post you get in the thread of your translation.

- Translation: 100 stakes
- Moderation: 5 stakes per post in your thread

By submitting your own translation you also get an invitation to our moderator's telegram group in which we will help you answer any question for your local community.

## **HOW BOUNTY DISTRIBUTION WORKS**

Example for Twitter bounties.

**Twitter** earns you 20 stakes every week you are following us. If you have fewer than 300 followers, you will earn 10 stakes for each retweet or mention (mention with [@safehavenio](#)). If you have 1000 or more followers, you will earn 50 stakes for each retweet.

If you are following [@safehavenio](#) for 5 weeks and do 15 retweets and have 1000 or more followers, you'll get 850 stakes. The number of SHA tokens will then be proportionally distributed among everyone participating in Twitter bounties.

The same logic applies to other bounties.
